All credits & thanks for the pattern: [Irisss](#)

Beading mods: [TonyCypher](#)

Beading colors: [CherryBon](#)

Legalities

This pattern was created by [Irisss on BraceletBook](#) and all credit goes entirely to her as she did all the work. Make sure to upload a photo and leave a like on [her pattern page](#).

Please note that **selling the pattern itself or this document is prohibited**. However, selling the finished bracelet is usually fine with BraceletBook as long as you credit the author. You may additionally want to ask the author directly (and I personally didn't get a single decline), but a number of creators may be inactive now. Related discussions: [one](#), [two](#), [three](#), [four](#), [five](#).

Modifications made

Originally, this was a friendship bracelet pattern meant to be knotted with threads. I altered the pattern for beading, and my wife chose the seed bead colors. We are happy to share these updates as well:

- Stretched vertically by 1.2x to adjust for the bead aspect ratio.
- The moon was redrawn to maintain its 1:1 circular ratio after the stretch.
- The bubble color was replaced with white (looks much better in beads).

General permission for posting this kind of modifications: [forum thread](#).

Sizes *(Delica 11/0 or Aiko)*

Dimensions

13×84 rows (+2 rows inside clasps)

Width

1.85cm (fits into any **20mm** clasp tube: Miyuki, Finrusiac or generic Chinese tubes)

Length

- Beadwork length: **14.3cm**
- Length with clasp tubes: **15.1cm**
- Total length (incl. tubes & average lobster lock): **≈17cm**

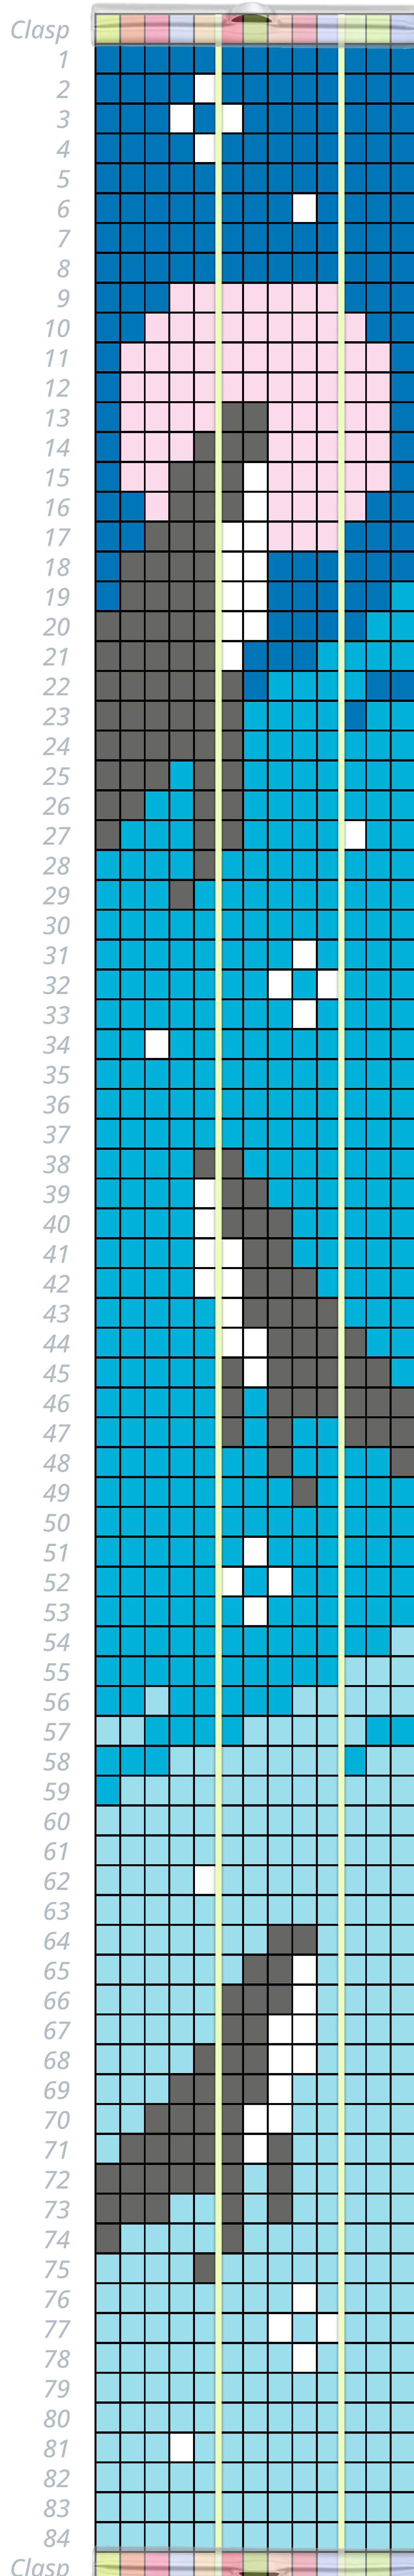

Fits a **16cm** wrist and above.

Working thread estimation

Take **4 meters or more**, based on the following calculation:

$$\left(\underset{\text{row width}}{1.85\text{cm}} \times \underset{\text{row passes}}{2 \times 86\text{rows}} \right) + \left(\underset{\text{thread turns}^*}{0.25\text{cm}} \times \underset{\text{row count}}{86\text{rows}} \right) = \underset{\text{net length}}{340\text{cm}} \text{ (take 4m)}$$

* The working thread loses about 0.15cm when transitioning to the next row, and another 0.1cm on the U-turn around the outermost warp thread.

Modifications made

Originally, this was a friendship bracelet pattern meant to be knotted with threads. I altered the pattern for beading, and my wife chose the seed bead colors. We are happy to share these updates as well:

- To fit smaller wrists, seven rows were removed from various areas.
- Stretched vertically by 1.2x to adjust for the bead aspect ratio.
- The moon was redrawn to maintain its 1:1 circular ratio after the stretch.
- The bubble color was replaced with white (looks much better in beads).

Sizes *(Delica 11/0 or Aiko)*

Dimensions

13×78 rows (+2 rows inside clasps)

Width

1.85cm (fits into any **20mm** clasp tube: Miyuki, Finrusiac or generic Chinese tubes)

Length

- Beadwork length: **13.3cm**
- Length with clasp tubes: **14.1cm**
- Total length (incl. tubes & average lobster lock): **≈16cm**

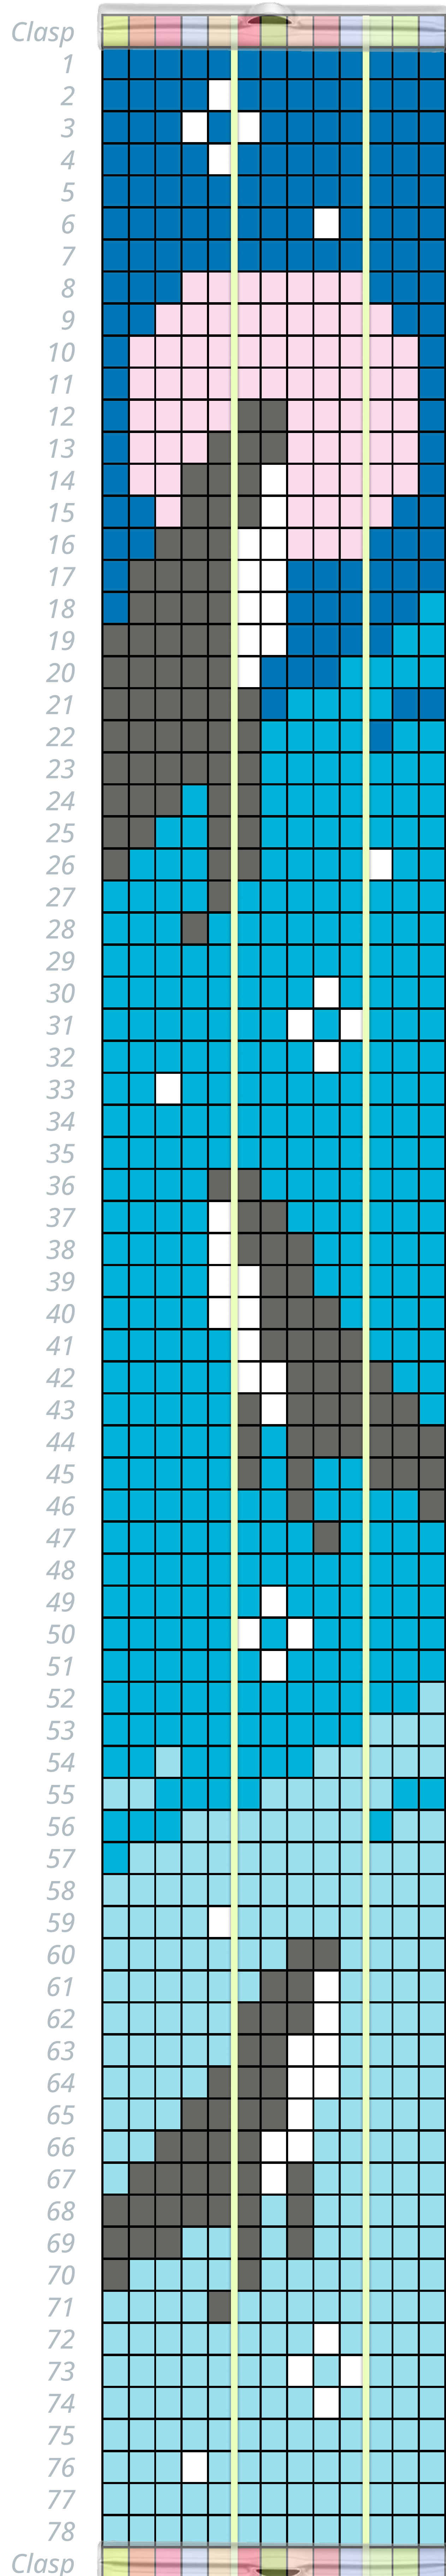

Fits a **15cm** wrist and above.

Working thread estimation

Take **3.8 meters or more**, based on the following calculation:

$$\left(\underset{\text{row width}}{1.85\text{cm}} \times \underset{\text{row passes}}{2 \times 80\text{rows}} \right) + \left(\underset{\text{thread turns}^*}{0.25\text{cm}} \times \underset{\text{row count}}{80\text{rows}} \right) = \underset{\text{net length}}{316\text{cm}} \text{ (take 3.8m)}$$

* The working thread loses about 0.15cm when transitioning to the next row, and another 0.1cm on the U-turn around the outermost warp thread.

Note: This is a separate version of the same design, but it was uploaded to a [different page](#) (the author originally created two patterns).

Sizes *(Delica 11/0 or Aiko)*

Dimensions

13×66 rows (+2 rows inside clasps)

Width

1.85cm (fits into any **20mm** clasp tube: Miyuki, Finrusiac or generic Chinese tubes)

Length

- Beadwork length: **11.2cm**
- Length with clasp tubes: **12cm**
- Total length (incl. tubes & average lobster lock): **≈14cm**

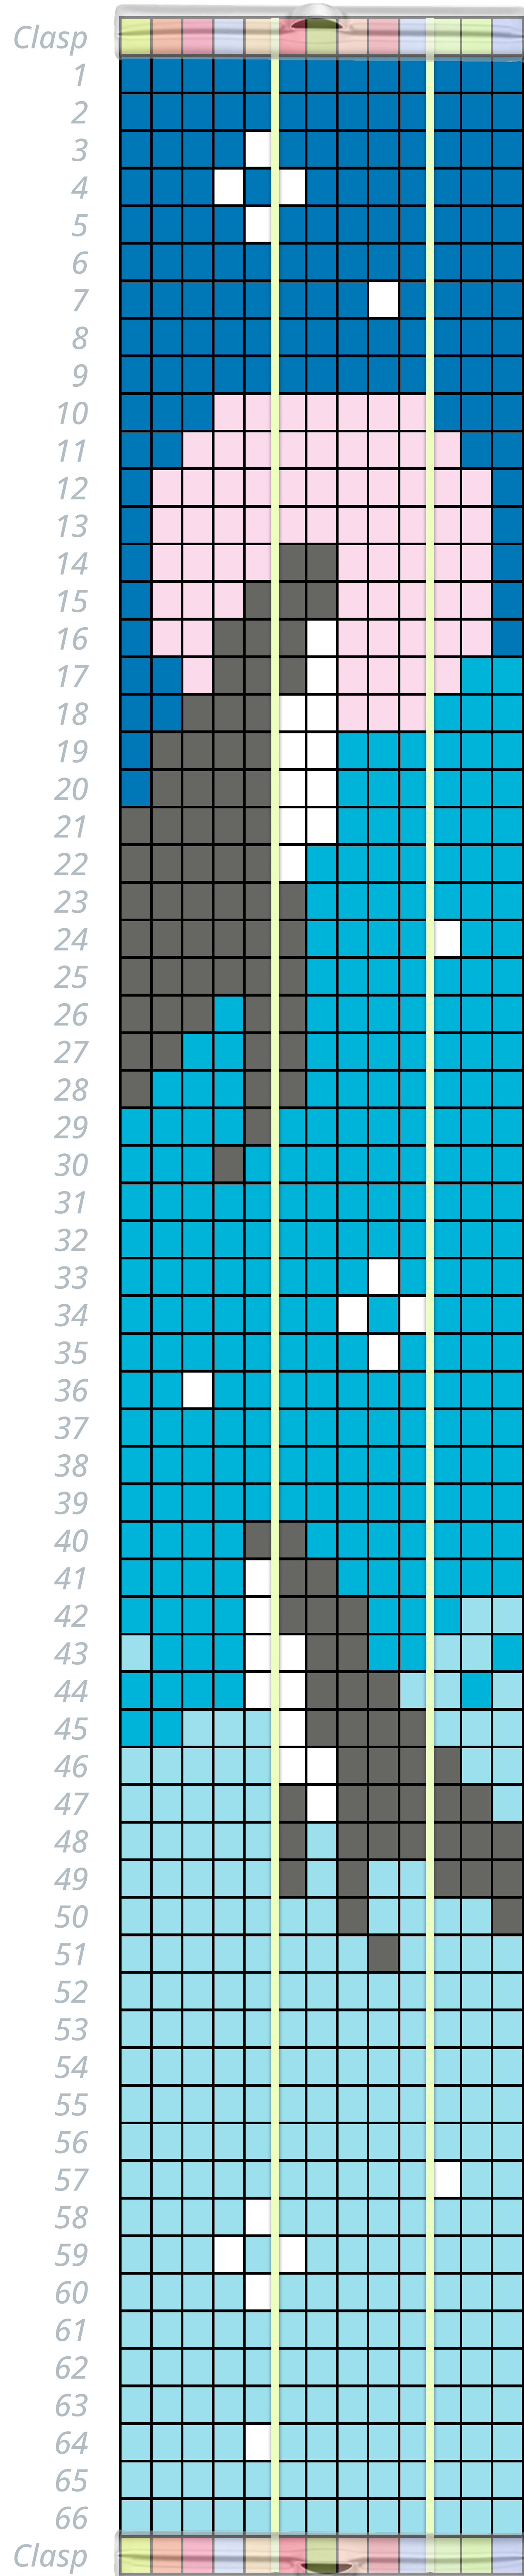

Fits a **13cm** wrist and above.

Working thread estimation

Take **3.3 meters or more**, based on the following calculation:

$$\left(\underset{\text{row width}}{1.85\text{cm}} \times \underset{\text{row passes}}{2 \times 68\text{rows}} \right) + \left(\underset{\text{thread turns}^*}{0.25\text{cm}} \times \underset{\text{row count}}{68\text{rows}} \right) = \underset{\text{net length}}{269\text{cm}} \text{ (take 3.3m)}$$

* The working thread loses about 0.15cm when transitioning to the next row, and another 0.1cm on the U-turn around the outermost warp thread.

Colors

This is one of my earliest bracelets, and both my wife and I have made remakes of it over the years. In total, we've tried three color palettes across three different lineups of finishes. We were never fully satisfied with our initial choices in each lineup, so there are no relevant photo of the bracelets.

However, if I were to make another one today, I'd use one of the updated sets below, which are based on our past experience. These are my wife's picks — she is officially our color manager.

Feel free to message [CherryBon](#) if you have any questions about colors or need specific color replacement advice. We have a fairly big collection of Delica and Aiko on hand, so she'll be happy to take a look!

Miyuki Delica 11/0

Shiny variant with *rainbow/luster* finish

- **DB-1578** (*rainbow*) • Cyan Blue
- **DB-167** (*rainbow*) • Light Sapphire
- **DB-1577** (*rainbow*) • Agate Blue
- **DB-1533*** (*ceylon, glazed luster*) • Light Salmon
- **DB-201** (*luster*) • White
- **DB-10** (*non-extra finish*) • Black

It would be better with **DB-1503, but it is pretty hard to find since this color was discontinued by the manufacturer in 2023.*

Bland *non-extra finish* variant

Standard, uncoated beads — just the raw glass color. The same color combination as above: pretty colorful, but not shiny.

- **DB-1138** (*non-extra finish*) • Cyan Blue
- **DB-730** (*non-extra finish*) • Light Sapphire
- **DB-1137** (*non-extra finish*) • Agate Blue
- **DB-2115** (*duracoat, outside-dyed*) • Guava
- **DB-200** (*non-extra finish*) • White
- **DB-10** (*non-extra finish*) • Black

Сдержанный вариант *duracoat, outside-dyed*

A greener, sea-water palette. Minor shine, but far from rainbow finish.

- **DB-2135** (*duracoat, outside-dyed*) • Juniper Berry
- **DB-2133** (*duracoat, outside-dyed*) • Azure
- **DB-2128** (*duracoat, outside-dyed*) • Nile Blue
- **DB-2115** (*duracoat, outside-dyed*) • Guava
- **DB-200** (*non-extra finish*) • White
- **DB-10** (*non-extra finish*) • Black

Toho Aiko

Shiny variant with rainbow/luster finish

- **TA-408** (*rainbow*) • Navy-Blue
- **TA-408L** (*rainbow*) • Periwinkle
- **TA-403** (*rainbow*) • Blue Turquoise
- **TA-1602** (*luster*) • Peachy Pink
- **TA-121** (*luster*) • White
- **TA-49** (*no finish*) • Jet
